If there is one mod that is very popular among all the others, it has to be Keep Craft Mod. This mod makes it so that people keep their objects with them as they try to escape from dungeons. This is a great way for taking back some of the items in dungeons when monsters do not want to give them up. The mod is easily configurable in case you don't want the damage that it can do to your game. It also allows for a lot of new materials in your game and some new recipes. This is one of the most popular mods out there because so many people want to be able to retrieve their items after they have spent a long time gathering them in dungeons or slaying monsters. As in Minecraft, players can gather resources such as blocks of wood, stone, ores, plants, and foodstuffs from the environment to use in crafting. While players are able to craft a variety of basic weapons such as axes and swords using these materials, they will need to gather blueprints for advanced items such as firearms and explosives. The game features combat between players where every player has access to health regeneration; this prevents battles from lasting indefinitely and makes it more viable for players to attack each other with melee weapons instead of guns.",
